### 1. General Information

The specifications governing this contract can be located on the Internet under the specification index.	
<a href="#">Specification 7105-1F</a>	Chairs, Metal, Folding
<a href="#">Specification 7105-2E</a>	Tables, Folding
<a href="#">Specification 7105-4A</a>	Tables, Mobile Folding

Users are urged to review these specifications which can be found by accessing Purchase and Contract's home page at: <http://www.ncpandc.gov>, then clicking on the Term Contracts, click on specifications.

It is the primary purpose of this contract to provide users with a reasonable selection of various types of metal folding chairs, tables, and storage units which are of such quality as to be safe, durable, comfortable and delivered in a timely manner.

An additional purpose is to provide a selection of various sizes of tables where appropriate so as to accommodate different student sizes in the various grade levels. A still further purpose is to provide for a selection of options in order to maximize the suitability of the various units for particular needs.

In the event unforeseen circumstances that would prevent a new contract from being in place at the expiration date of this contract, the Division of Purchase and Contract reserves the right to extend this contract up to six (6) months in ninety (90) day increments.

### 2. Scope of Contract

The scope of this contract is limited to metal folding tables, chairs and storage units.

### 3. Taxes

Prices or Discounts shown herein do not include any North Carolina sales or use taxes.

### 4. Abnormal Quantities

No Abnormal Quantity is specified for this contract. Upon request, this Division will assist any state agency in the procurement of any single large purchase from this contract. For administrative purposes, all requirements over \$60,000.00 shall be sent to the Division of Purchase and Contract for review.

## 5. Minimum Orders

This contract will be for a minimum order of \$250.00 for any single order. Agencies are authorized to purchase from best available sources on orders less than this minimum order value. This provision shall not be used by an agency to circumvent the intent of the contract. If an agency elects to place an order for less than the minimum order value, and the contractor elects to accept such order, then transportation charges will be prepaid and added to the invoice.

## 6. Placement of Orders

Orders will be placed throughout the contract period on an as-needed basis for the quantity required at the time, and will be issued directly to the respective contractor(s) or their designated suppliers. Ordering agencies are encouraged to follow up on orders to ensure the contractor has processed their request.

Contract changes, if any, over the life of the contract are implemented by contract addenda released by the Contract Administrator to the contractor. If the contractor is accepting orders and/or delivering through other parties, for example a manufacturer accepting orders and delivering through a dealer network or dealers receiving orders through a network of other dealers, then it is the responsibility of the contractor to apprise such parties of all such contract addenda.

**Due to the complex nature of this commodity and the variety of specifications and options available, ordering agencies are cautioned to obtain catalogs from the contractor and verify specifications and ordering requirements prior to issuing a purchase order. This may prevent receiving items that do not meet the ordering agency requirements.**

**Dealer network is not listed on this contract. This is due to incorrect information supplied on previous contracts. See the last section of this contract on how to obtain dealer information.**

## 7. Delivery

The contractor(s) will complete delivery as specified in the contractor section.

## 8. Transportation Charges

All goods shall be delivered FOB DESTINATION when the "order value" is \$250.00 or more, when shipped to a single destination. Orders to a single destination that total less than this "order value" should be shipped prepaid, with transportation charges added to the invoice as a separate item. Transportation charges invoiced for orders equal to or more than this "order value" may be cause for removal of the contractor from the contract.

**NOTE:** If the contractor makes partial shipments of an order equal to or more than this "order value" to one destination, all shipments of the order shall be sent FOB DESTINATION with NO additional transportation charges added.

**Note:** All shipments should be inspected for damage immediately upon receipt.

### 9.D. Mobile Storage Equipment for Folding Chairs

#### Category 1 – Flat Bed Type

There is no standard specification for this item. The unit is a “flat bed” design sized to provide storage for chairs to be stored vertically resting on their feet. Chassis structure to be manufactured from angle iron with four hard rubber (or similar material) swivel casters, one mounted on each corner. Two of the casters shall be of the locking type. At one end a fixed tubular inverted “U” shaped push bar shall be provided. At the opposite end a similar tubular member shall be provided for supporting the stacked chairs in either a partially or fully loaded capacity. It is adjustable along the longitudinal axis. Surface Finish is to be finished with a durable non-chip paint suitable for the use intended.

**10. Price Lists and Catalogs**

The successful contractor must furnish descriptive literature to any agency within seven (7) consecutive days after request of the agency. Failure to comply with these requirements may subject the contractor to removal from the contract.

**11. Contractors**

All known minority, women and disabled owned businesses, as well as disabled business enterprises and nonprofit work centers for the blind and severely disabled, including dealers, will be identified with "Minority owned" "Woman owned", "Disabled Owned", "DBE" or "BSD" as appropriate after the vendor number. This is being done in an effort to recognize these businesses and to encourage and promote their use to the greatest extent permitted by law.

When more than one supplier is listed for a particular item, selection should be made, whenever possible, from any of the groups identified above, consistent with agency needs and price considerations.

## 12. Warranty

The contractor standard warranty guarantees items offered to be free from any and all defects in material, packaging, and workmanship and agrees to replace defective items promptly at no charge to the State. Warranties vary; using agencies may want to consider this in the procurement process. Contractors will provide evidence of warranty when requested.

## 13. Substitutions

Substitutions are not permitted without prior approval of the Division of Purchase and Contract. Failure of the contractor to comply with this requirement may result in the removal of the contractor from the contract.
