The scope of this contract is limited to Upholstered Lounge Seating, Dining Tables, Occasional Tables, and Upholstered Chairs (Metal and Wood). ### 2. General Information

Please note there is an extremely large variety of products available under this contract, representing a broad range of prices, materials, and construction. Please take the time to be assured the items selected will meet the requirements of your agency or institution.

The state currently has separate contracts for various types of furniture that may overlap or be duplicated in this contract. Using agencies may choose to purchase from these depending on which represents the "best value" to them. This contract contains complete information on Contractors and the manufacturer product lines offered. Price lists, catalogs and authorized dealer listings are supplied directly by the contractors. Please refer to the section entitled Contractors, Item 10 for a complete listing of the Primary and Secondary Contacts.

Where the Manufacturer is the Contractor they will supply a list of their dealers directly to the end user. When placing an order, please check this contract to be sure you have the correct price list, and to verify the discount and other applicable quantity discounts or other charges.

Your purchase order must list complete information on every item ordered, including manufacturer and model number; size; finish name and number and/or fabric grade, name or number; and any options required. Remember to include the contract number on all orders, especially since this contract has no commodity numbers for individual items. Remember to show complete shipping and mailing address on the purchase order.

All agencies are encouraged to review the Qualified Products List applicable for the type of furniture requested. Links are provided within this document to the five (5) Qualified Products Lists. There is not a Qualified Products List for Occasional Tables which are allowed only if they match the Sofa and Lounge Sets.

If you have any questions about the products i.e. design, materials, availability etc. please contact the specific Contractor or his representative. If you have a problem getting satisfactory answers contact the purchaser named above.
